

Freed Pointe Shoes Fitting/Order Guide

Strength/Styles

Freed Classic (Regular pointe shoes with all maker options)

★ Wing block (A stronger box and shank)

Freed Classic Pro (If you want extra support when en pointe, a factory-made shoe)*

Freed Classic Pro 90 (If you want extra support and a 90 degree angle platform so you don't wobble around en pointe, discourages sickling/winging, a factory-made shoe)*

*Factory-made shoes will always be exactly the same pair to pair. The Handmade Classics or Customs can vary slightly pair to pair, because they are made by people rather than machines.

Length and Width
